

Index

Foreword , by <i>Luigi Nicolais</i>	page 9
Preface	» 11
Part I Examples of the application of product data technology to a selection of industrial situations	
1. Introduction: Communicating engineering data , by <i>Norman Swindells</i>	» 15
2. Interoperability: costs and benefits , by <i>Anna Moreno</i>	» 20
3. Enterprise information management solutions for aerospace , by <i>Howard Mason</i>	» 30
4. Enterprise information management solutions for automotive , by <i>Steven Vettermann</i>	» 36
5. Business Applications: Oil and Gas , by <i>Matthew West</i>	» 42
6. Interoperability and Integration with EXPRESS , by <i>Tim King</i> and <i>Jochen Haenisch</i>	» 48
7. Materials and the properties of products , by <i>Norman Swindells</i>	» 55
8. Design and manufacture of composite material products , by <i>Keith Hunten</i>	» 61
9. High Value Manufacturing , by <i>Norman Swindells</i>	» 67

10. Product Libraries , by <i>Norman Swindells</i> and <i>Wolfgang Wilkes</i>	page	71
11. Recovery and recycling of high value products , by <i>Norman Swindells</i> and <i>Anna Moreno</i>	»	79
12. Data quality , by <i>Anna Amato</i>	»	83
13. Possible application for the nuclear industry , by <i>Xenia Fiorentini</i> , <i>Anna Moreno</i> , <i>Norman Swindells</i> , <i>Alessio Ubertini</i>	»	87

Part II

Insight view of some of the ISO standards developed by ISO TC184 SC4

1. Introduction: Standards for product data representation and exchange , by <i>Norman Swindells</i>	»	95
2. ISO 10303-11: The EXPRESS Language , by <i>Tim King</i> and <i>Jochen Haenisch</i>	»	99
3. ISO 10303-42: Shape representation , by <i>Ray Goult</i>	»	108
4. ISO 10303-209: Composite material structure, shape and properties , by <i>Keith Hunten</i>	»	118
5. ISO 10303-235: Engineering properties for product design , by <i>Norman Swindells</i>	»	130
6. ISO 10303-238: An Integrated Protocol for NC Machining , by <i>David Loffredo</i>	»	141
7. ISO 10303-239: Product life cycle support , by <i>Anna Moreno</i> , <i>Xenia Fiorentini</i> and <i>Roch Bertucat</i>	»	154
8. ISO 10303-242: 3D Engineering and Beyond , by <i>Steven Vettermann</i>	»	160
9. ISO 15926: Standard descriptions of process plant , by <i>David Leal</i>	»	165
10. ISO 13584: Parts Library, IEC Common Data Dictionary and Parcellized Ontology Model for Metadata Integration , by <i>Hiroshi Murayama</i>	»	176
11. ISO 13399: Cutting tool data representation and exchange , by <i>Norman Swindells</i> and <i>Olof Nyqvist</i>	»	193

12. ISO 8000-8: The Quality of Information and Data , by <i>Norman Swindells</i>	page 202
Summary	» 207
